**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4 and 9, drawn to a polyclonal antibody anti-UBE4A/Ufd2b.

Group II, claim(s) 5 and 8, drawn to an immunohistochemical method to determine UBE4A/Ufd2b protein antigen using the antibody of Group I.

Group III, claim(s) 6-7, drawn to a diagnostic and prognostic method to determine molecular abnormalities in the region 11q23.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is drawn to a polyclonal antibody anti-UBE4A/Ufd2b. Contino et al. (Italian Society of Human Genetics, 6<sup>th</sup> National Congress meeting, Abstract poster, cited on IDS filed 11/15/2006) teach the expression of UBE4A on carcinoma colon cell line through immunohistochemistry and western blot analysis. Therefore, the antibody of Claim 1 is not novel over the prior art.
3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
